Dear Parents/Guardians,

Here are the guidelines re teaching and learning for the coming weeks:

School will be open 10-2pm Monday and Tuesday 11/12th January to allow for adults only to collect books and material left in classrooms for each pupil. Go to child's classroom at your convenience and collect.

Teachers will engage with pupils via See Saw- some classes have already used this online platform, and it is very child friendly. Work goes back and forth on a daily basis. We will start very simply to begin with.

Check SeeSaw app regularly for updates.

On Monday/Tuesday the QR codes needed for first time users will be left on child's desk.

Do not panic if you're not confident with technology! Between teacher/SNA and pupil, we will manage .

Children receiving additional support may also be supported via FaceTime and Zoom, whichever works better for families.

We have been here before. Children are very resilient. If they get into the habit of doing some work every day, focusing on reading, writing and Maths, supported by teacher/SNA, they will be happy with their achievement. This is not a time for worrying about "am I doing enough?" Getting out for a walk and keeping a simple routine going at home are top priority.

Sincere thanks again to our frontline parents and guardians who are doing such valuable work for society.

We as a staff were delighted to see schools reopening- and kept Scoil Fhionáin open safely.
We look forward to being able to reopen safely once restrictions lift.

We will be in touch with families receiving school lunch next week.
